### Donâ€™t Ignore Your Doctor

Don't Ignore Your Doctor This is why you should never ignore what your Doctor tells ya. The other day I went over to a nearby Pharmacy. When I got there, I went straight to the back of the store to where the Pharmacists' Counter is located. I took out my little brown bottle along with a teaspoon and laid them both onto the counter. The pharmacist came over smiled and asked if he could help me. I said, "Yes! Could you please taste this for me?" Being I'm a senior citizen, I guess the Pharmacist just went along with me. He picked up the spoon and put a tiny bit of the liquid on his tongue and swilled it around. Then with a stomach-churning look on his face he spit it out on the floor and began coughing. When he finally was finished, I looked him right in the eye and asked, "Now, does that taste sweet to you?" The pharmacist, shaking his head back and forth with a venomous look in his eyes yelled, "NO WAY!!!" I said, "Oh, thank God! That's a real relief! My doctor told me to get a pharmacist to test my urine for sugar!" I can never go back to that CVS, but I really don't care, because they aren't very friendly there anymore!!!
