Homeschooling Today

<http://homeschoolingtoday.com>

Bi-monthly print magazine from a Christian perspective. Liberal arts instruction, teaching aids, preschool activities, science corner, recent or headline news, and curriculum reviews.

Homeschooling Today magazine was founded by homeschooling parents with a vision to encourage and assist homeschooling families. Today, that vision continues as we focus on providing information and tools for those who homeschool, shared from a Christian perspective. The magazine doesn't just offer encouragement but also ready-to-use lessons and activities for anyone who wants to expand the educational experience of their children, while keeping the approach to learning natural. Our goal is to help parents create an environment "Where The Love of Learning Takes Root".
