## Multiplication Chart

<http://www.dadsworksheets.com/charts/multiplication-chart.html>

### Free printable multiplication charts in a variety of high resolution formats

This page provides printable multiplication charts in a variety of high resolution formats. Each version of the chart includes variants with products from 1-81, 1-100, 1-144 and 1-225. There are several different color multiplication charts, including a multi-color rainbow version, and there is a proportioned multiplication chart with cells sized relative to the product for each multiplication fact in the table. There is also a multiplication chart with each cell divided into a grid reflecting the product. All of these charts are powerful ways to memorize the multiplication table!
