New Christian Homeschool Social Networking Website

<http://www.homeschoolfamily.com/post/2009/02/26/New-Christian-Homeschool-Social-Networking-Website.aspx>

Are your kids on MySpace or Facebook?~ Then they may be facing the same dangers that they might in public school. ~ According to the New York Times and Washington Post, MySpace has deleted 29,000 registered sexual predators from its membership and Facebook is not far behind... and those are just the sexual predators that they found out about! The good news is that there is a full featured, parent driven social networking site on the way just for Christian homeschoolers.~ I can't divulge too much right now as the project is still in development, but the principals are interested in finding likeminded Christian homeschoolers as investors and ministry partners for this new online community. If you are interested in becoming an investor or ministry partner in this ground floor opportunity, please email homeschoolspace@gmail.com.
