SOTW: Shiver Academy's Book of Virtues Unit Study

<http://answermom.com/cgi-bin/dada/mail.cgi/archive/siteweek/20090722110811/>

T8ermomma, owner of Shiver Academy (Shiver is a penguin who is the school mascot, in case you are wondering), has put together a 992 page unit study based on the Book of Virtues and has made it available for download at no charge. This enormous resource is full of printables, lesson plans, worksheets, planning sheets and much more. It's obvious that many hours went into planning this great unit and T8ermomma is gracious enough to share it at no charge. You can see all of the details at her blog, and look in the right column about halfway down the page for the download links (under the Book of Virtues heading). There are a few other downloads available below the Book of Virtues section. The unit is available as both one large file and several smaller files for those who might be on a slow connection. Thanks to Homeschooler's Notebook for bringing this resource to my attention!
