SOTW: How To Do Research

<http://answermom.com/cgi-bin/dada/mail.cgi/archive/siteweek/20090812135217/>

From the Kentucky Virtual Library, this site is a special research portal and information literacy tutorial designed for grades K-5. Through its interactive gameboard format, the site takes students through the entire process of research from picking a topic through a self-evaluation rubric for the project. Great site!
