Ladies and Gentlemen, Drop what you're doing. Take 5 minutes to enter this giveaway. You will be THRILLED when you win! The WheelyCow and WheelyBugs are premiering TODAY on Tori and Dean (<http://tori-and-dean.oxygen.com/>), and this giveaway was scheduled to coincide with the premier! WheelyCows and WheelyBugs retail for \$79.99 plus tax on the Prince Lionheart website, but thanks to Prince Lionheart, you can WIN one from the Vaagen Family! Prince Lionheart was so generous to share their WheelyCow with my family! I believe my two year old has been on it ever since it came in the mail 2 months ago! She asks if she can sit on it to eat! This amazing ride-on toy is unlike any other I've seen!! And with 4 kids, I have seen my share of ride-on toys! I'd love to share some of my favorite things about the WheelyCow: 1. The wheels GLIDE. They don't leave marks on my hardwood floors! 2. The WheelyCow is QUIET! Even when my little 4 year old rides on it... and that happens very often! No more wondering if it is thundering outside, or if the house is falling down, or if the world is ending when my girls ride through the house!! 3. Easy to clean! The WheelyCow is so wonderfully easy to clean- I simply wipe it with a damp towel, and because it has a super-smooth surface, no spilled drinks get stuck in impossible-to-reach cracks... there are none! 4. Happiness factor. My girls absolutely LOVE this toy. Of all their toys, this is at the top of the list. I can't help but smile when they keep it by the bottom of the stairs. They wake up in the morning, come downstairs, hop aboard the WheelyCow, and ride it straight to the breakfast table! :) Now you know MY favorite things about the WheelyCow, but let me share my daughters' favorite things about it: 1. "The top is made of 'comfy squishy stuff.'" Remember, I'm passing along THEIR words, here! :) (The top is made of leather, with a soft padding underneath! It is VERY comfy! 2. "It can go really fast in circles!" This toy allows them to "spin out" in one place! The wheels swivel, allowing for MUCH more fun! 3. "The horns." I guess they felt like this part was self-explanatory. The horns on the front of the WheelyCow are on springs, and they wiggle like little bobble-heads! :) 4. "The handle is not like normal ones." The handle bar is a semi-circle, which I love for two reasons. First, safety. My girls like to fly around on their riding toys, and they have landed across a square handle bar before, and that hurts! The WheelyCow has a soft, semi-circle handle, which would be much more comfy in that situation! Thank you SO MUCH to Prince Lionheart for allowing me to review this AND the Stroller Accessory package! I truly LOVE your products! Readers, do yourself a favor, and enter this giveaway today!
